

Supply of Agricultural Biomass Waste e.g Sawdust

Updated November 2016

1. **Fine Sawdust** – We don't use wood chips or waste from wood planning.
2. Other fines from coffee husks, rice husks, macadamia, wheat stalks will also do. Samples of 10 kgs must first be provided.
3. **ONLY sawdust generated from band saw operations is ACCEPTABLE.**
4. We **DO NOT** use **MDF (Medium Density Fibreboard)** sawdust.
5. **CLEAN** – No soil lumps, metals, plastics or large pieces of wood.
6. **DRY** – Max moisture content = **30%**.
7. **NO OIL OR FAT residue** – It will spoil our machines.
8. **Consignments MUST have a Delivery Note lest the Kenya Police assume the material is coming from one of Kenya's forests. Details should include:**
 - a. Name/Organisation of supplier with address & mobile number
 - b. Item, quantity (kgs) and destination
9. Copy of ID **MUST** be provided. Suppliers **MUST** be over **18yrs**.
10. Offer price is **KShs. 100 per 90kg bag**.
11. Trucks **MUST** go through a **weighbridge** and the cost is shared between us.
12. If **more than 2 tonnes Kgs** then payment is by **cheque ONLY**.
13. Collection time is **Wednesday to Friday from 1 pm – 5.30 pm ONLY**.
14. Main contact No. is **0725 351 032** or **info@ecopost.co.ke**.
