

# Supply of Polythene (HDPE & PP) & PET Plastics

*Updated November 2016*

1. **HDPE** (High Density Polyethylene) & **PP** (Polypropylene) – Clear/white polythenes preferred.
2. **We purchase PET (e.g. water bottles) from commercial sources e.g. hotels & schools.**
3. We **DO NOT** purchase or use **LDPE (Low Density Polyethylene).**
4. A **sample of 10 kg MUST** first be provided for examination & testing.
5. We determine **QUALITY** based on the following criteria:
  - a. **Type** - HDPE or PP or PET - Our process cannot use any other material.
  - b. **Clean** – No soil lumps, food, oil or fat residue. Industrial & supermarket are best.
  - c. **Dryness.** Ideal moisture content **<15%**. Any % above is deducted from kgs delivered.
  - d. **Gauge** - Unga type packaging is best, black & green bags issued in shops; not so much.
  - e. **Contamination** - No mixing of different plastics. Must be 100% homogeneous.
6. Offer price for HDPE & PP polythenes is **KShs. 6 - 18/kg.**
  - a. Domestic / Commercial grade – KShs. 6/kg. (Up to KShs. 10/kg if clean & homogeneous)
  - b. Industrial / supermarket grade – KShs. 15/kg.
  - c. Delivered Industrial grade – KShs. 18 /kg.
7. Ideal supply quantity is 1 tonne (**1,000 kgs**) per week.
8. Trucks **MUST** go through a weighbridge. Weighbridge fee is shared on a 50:50 basis.
9. Copy of ID **MUST** be provided. Suppliers **MUST** be over **18yrs.**
10. Payment is by **cheque or M-Pesa ONLY.**
11. Collection time is **Wednesday to Friday from 1 pm – 5.30 pm.**
12. Main contact No. is **0725 351 032** or **info@ecopost.co.ke.**
